SWISS GIN 1616 LANGATUN

Canton Bern, Aarwangen. 1616 the distillery building of Langatun was founded! The Langatun Gin 1616 is distilled from twelve secret botanicals (juniper is of course included!), which give their aromas to the distillate. By the way, the alcohol content of 49.12 % vol is also not randomly chosen: The number represents the zip code of Aarwangen despite the high percentage of alcohol, the gin remains velvety smooth with a dominant juniper flavour and hints of orange and lime.
